There is WiFi both at Waldwirt and at Ausswinkl. For one week it costs 5 Euro. You can use your ticket for as many devices as you like.

**Please don't use notebooks in the lecture room !**

Be so considerate as to go outside for checking emails and that sort of stuff.

## **Optional „Excursion“ on **Thursday** during afternoon break**

We will walk to the Hornspitz cable car station which takes us up on the mountain from where you have a marvellous view over the Dachstein region and can walk on the piste, until we arrive at a fancy new lodge. There is time for lunch i.e. even more local-style food...

If the weather is on our side, we will enjoy a phantastic afternoon in the sun with fresh mountain air and a spectacular view.

# Some impressions
